3	TAP Route Identification Number	Length (Miles)	Current Status	Proposed Change to Routes	Rationale	CAT CONSENSUS	DISTRICT RANGER "Bucket 3" Determinations
239	5552	0.67	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. Reduce human disturbance to Mexican spotted owl PAC, Goshawk Management Territory, and bat roosts in abandoned mines.	Agree with USFS Proposed Action	
240	5553	0.14	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Unnecessary access to Riparian Areas. Open shaft. Close for safety and resource reasons.		No Change from Proposed Action
241	5554	0.16	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. Unnecessary Access to Riparian Areas. Reduce human disturbance to Mexican spotted owl PAC, Goshawk Management Territory, and bat roosts in abandoned mines.		No Change from Proposed Action
242	5555	0.25	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. Unnecessary Access to Riparian Areas; reduce impacts to bat roosts.		No Change from Proposed Action
243	5555 A	0.13	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Reduce impacts to bat roosts. Located on Soils that are Generally Steep.		No Change from Proposed Action
244	5557	0.18	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Road is not on ground. Adds unnecessarily to Road Density, parallels other roads, or roads that lead to the same locations as other roads and serves no purpose for administration or use of the National Forest. Has potential to affect soil, water, and air resources.		Open to all vehicles, ML2
245	5559	0.10	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Gentle Terrain and Erodible Soils.		No Change from Proposed Action
246	5561	0.29	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Threat of contamination of salamander habitat. Unnecessary access to Riparian Areas.		No Change from Proposed Action
247	5562	0.59	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. Redundant. Obliterated on ground.		No Change from Proposed Action
248	5563	1.03	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep; redundant route		No Change from Proposed Action
249	5564	0.45	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. No longer on the ground.		No Change from Proposed Action
250	5565	0.33	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible.		No Change from Proposed Action
251	5566	0.23	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. Unnecessary Access to Riparian Areas. Old mine road that is no longer needed.		No Change from Proposed Action
252	5569	0.68	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Gentle Terrain and Erodible Soils; reduce potential for introduction of exotic species and diseases which negatively impact Sonoran tiger salamander and other aquatic species.		Open to all vehicles, ML2
253	5570	0.74	NFSR	Decommission NFSR	No longer needed to meet forest resource management objectives. Located on Soils that are Generally Steep and Erodible. Unnecessary Access to Riparian Areas. No longer on the ground.		No Change from Proposed Action
